

**SPARK
INDUSTRIES**
NAVRANG GROUP

Manufacturer and OEM supplier of

Bearing Cages

Cages of

Taper Bearing
Cylindrical Bearing
Angular Contact Bearing
Single Ball Bearing
Double Ball Bearing
Spherical Roller
Thrust Ball Bearing

About Company

We are Spark Industries, one of the Leading and quality consistent manufacturer and OEM supplier of Taper, Cylindrical, Angular Contact, Single Ball, Double Ball and Spherical Roller & Thrust Ball Bearing Cages. We deliver complete customer satisfaction with our products. Our main aim is to deliver high quality bearing cages with consistent precision and quality to our customers.

Our Goal : ***“To achieve the Customer satisfaction through Continual Improvement in processes and all area of operation and Providing quality product at the right time and at the right place.”***

Our state of the art manufacturing facility gives us the confidence to manufacture consistent, precise and quality bearing. We are periodically investing in latest technology to achieve this goal. Our manufacturing facility is spread in 4800 Sq yard we have 4400 Sq Meter covered area. Our manufacturing facility is fully equipped with latest machineries. With our state of the art manufacturing facility we have started with 2,00,000 pcs per month initial production capacity in 2017 and in 3 years we have reached to 8,00,000 pcs per month production capacity.

Infrastructure

With the latest machineries and experienced manufacturing team we are able the manufacture from dia 30 mm To 300 mm for Taper, Cylindrical, Angular Contact, Single Ball, Double Ball, Spherical Roller and Thrust Ball Bearing Cages.

Currently 16 Power Presses (20 to 160 Tons Capacity), 9 Pneumatic Presses (20 to 35 Tons Capacity), 6 Auto Face machines, Shearing and Straighten machines, Shot Blasting machine, 4 Auto Line, Lathe Machines, Milling Machines, Shaping Machines, Grinding Machines, Drill Machines, Hack Saw Cutting Machine, Welding Machine, Ultrasonic Cleaner and all other necessary machines installed in our manufacturing facility.

Infrastructure

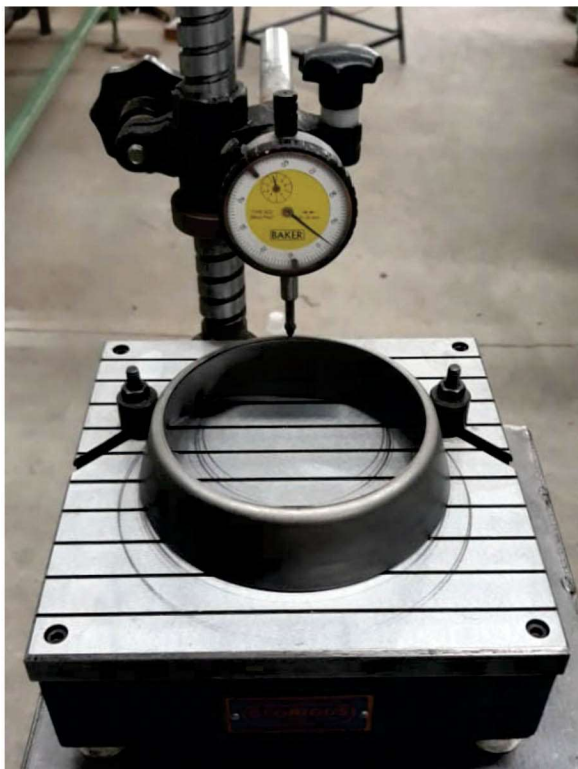

We have the vast experience of working with variety of materials. With the integrating of Manufacturing, Technology and Quality Management system we can provide you the defect free products. This can be achieved by our well experienced and quality conscious production team.

Quality

We are manufacturing bearing cages under strict quality program under supervision of the well experienced, dedicated and qualified team.

Our state of the art manufacturing facility follows strict quality standards of an ISO 9001:2015 quality system. Periodically we are calibrating and also upgrading our quality checking instruments to ensure the consistent quality production.

Quality Instruments List

- Digital Vernier Caliper
- Plunger Dial Gauge
- External Micrometer
- Digital Bevel Protractor

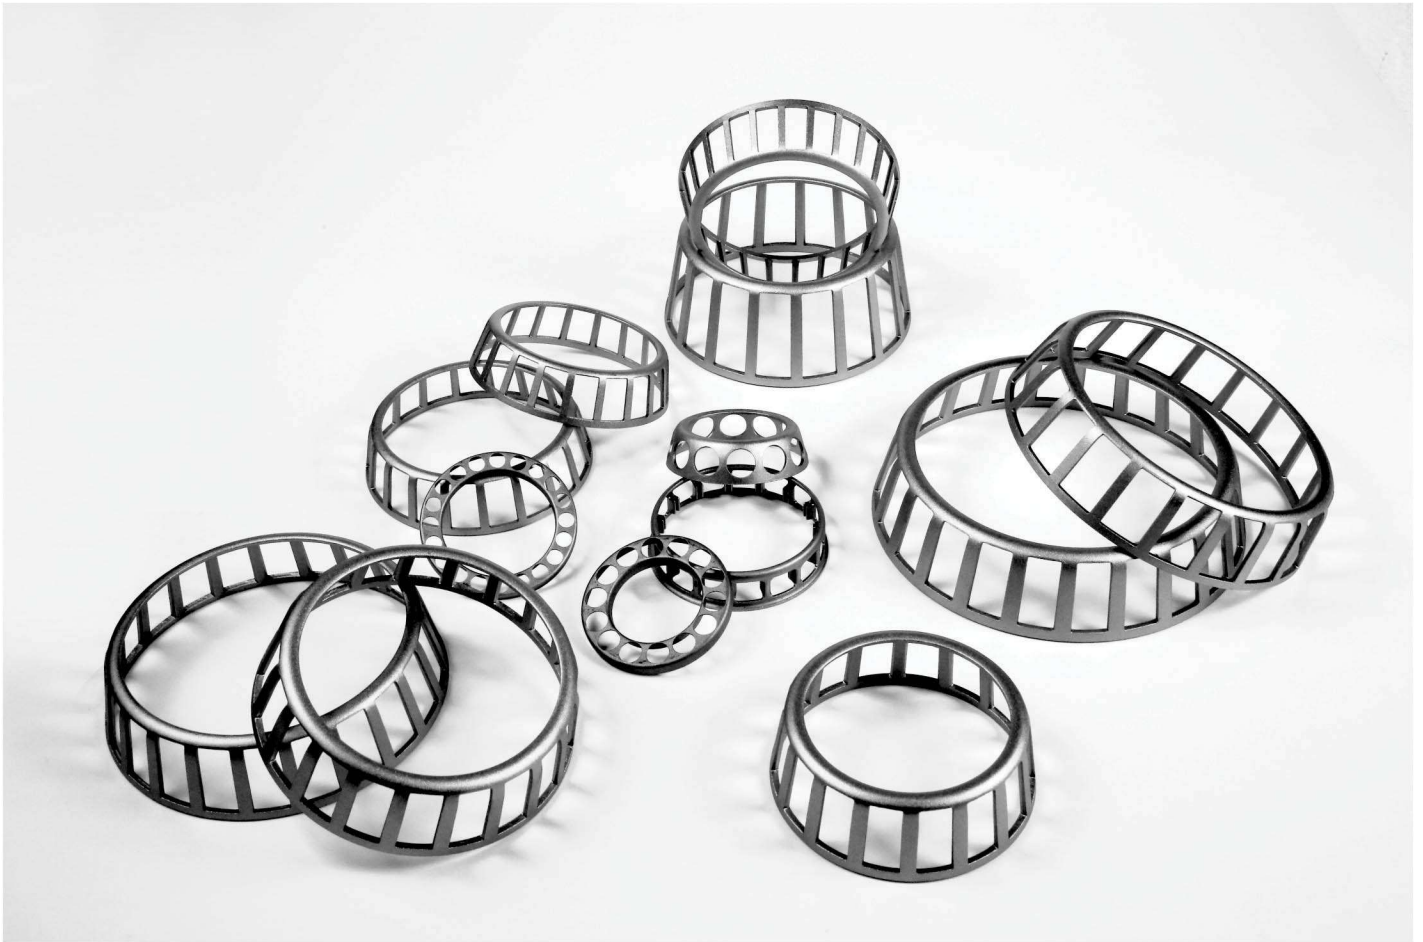

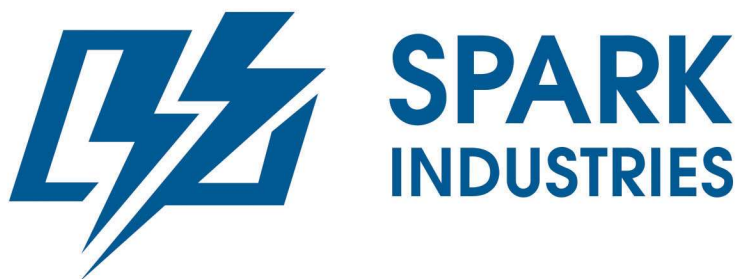

Products

We are manufacture from dia 30 mm To 300 mm for Taper, Cylindrical, Angular Contact, Single Ball, Double Ball, Spherical Roller and Thrust Ball Bearing Cages.
